### *Cold Pressed Fresh Juice \$7 (available till 3:30PM)*

Why Cold Press? Cold pressed juice can help ease the strain of detoxification on your body. They're chock full of nutrients that are geared towards fighting toxins and boosting immunity and health. Cold pressed juice is so potent and instantaneous because it lacks the fibrous pulp of the whole fruits and vegetables. Since the body doesn't have to break the fiber down in the digestive system before being able to be used, cold pressed juice is like a lightning bolt to the system.
